

SAVE THE DATE

April is Alcohol Awareness Month

DID YOU
KNOW?

- An estimated 88,000 people die from alcohol-related causes annually
- Alcohol is the third leading preventable causes of death in the United States. The first is tobacco, and the second is poor diet and physical activity
- In 2014, alcohol-impaired driving fatalities accounted for 9,967 deaths (31 percent of overall driving fatalities)
- Drinking Alcohol increases the risk of cancers of the mouth, esophagus, pharynx, larynx, liver and breast.

FACT

(National Institute on Alcohol Abuse and Alcoholism, 2019)
